Dear Parent/Guardian

Re: Food Allergies

I wish to inform you there are a number of students in the college who have severe food allergies.

These students may suffer a potentially life threatening reaction on exposure to NUTS. In order to manage the risk of an allergic reaction I ask you to ensure that your son/daughter **do not bring nuts or food containing nuts into the college.**

I am sure you appreciate the reason for making this request.

Thank you for your full co-operation.

Yours sincerely
