

August 2012

Dear Parent/Guardian

I wish to advise the dates and details of the school immunisation programme for 2012 – 2013.

The HPV vaccine, which protects against cervical cancer, is being offered to all Year 9 girls and some Year 10 girls who may have missed this vaccination in the previous year. To get the best protection, it is important that your child receives all three injections over the next 6-12 months.

More information is provided with the consent form which will be sent to you by the Northern Trust school immunisation team.

The school immunisation team will be in the college on the following dates:

Immunisation	Date	Year Group
HPV 1	06 November 2012	Year 9 and some Year 10 girls
HPV 2	14 December 2012	Year 9 and some Year 10 girls
Diphtheria-Tetanus-Polio Booster	31 January 2013	All Year 11 (Boys and Girls)
HPV 3	12 June 2013	Year 9 and some Year 10 girls

If your child is not in school on these days you may have to make alternative arrangements.

Please contact me if you have any concerns.

Yours sincerely

Mrs Grainne Harkin
School Nurse
